

OPERATION UNIFIER

POSTAL INSTRUCTIONS

PARCEL DIMENSIONS

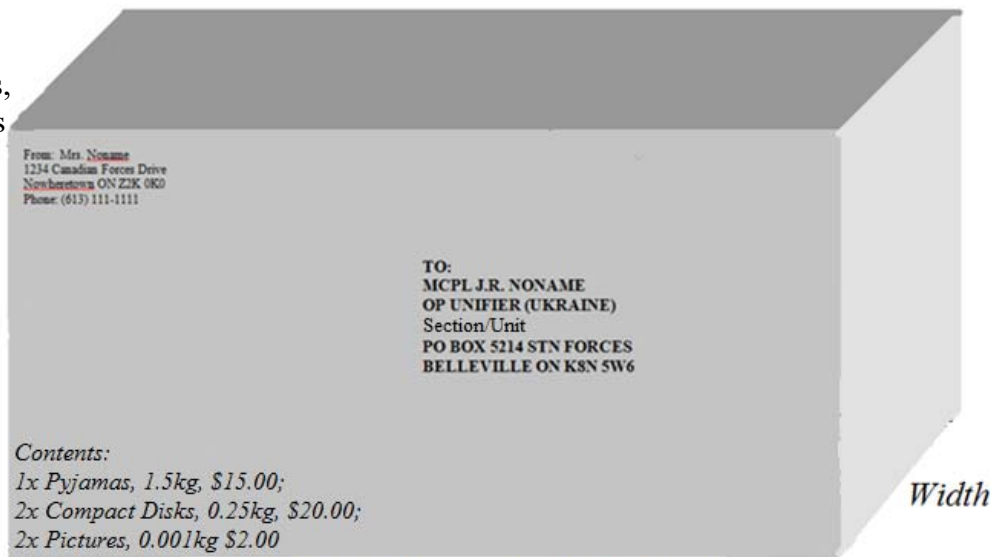

- Maximum weight cannot exceed 20 kg.
- Maximum length must be equal to or less than 1 metre.
- Maximum length plus the cubic measurement must be equal to or less than 2 metres.
 - o To determine cubic measurement apply the following formula;
 - cubic measurement = length + width + height + width + height
 - Example; length = 1.0 m, width = 0.3 m, height = 0.15 m.

$$\text{cubic measurement} = 1.0 + 0.3 + 0.15 + 0.3 + 0.15 = \underline{\underline{1.9\text{ m}}}$$

PARCEL LABELLING

- All parcels shall contain a return address, originators phone number, and members operational address.
- All parcels shall contain a list of:
 - Contents.
 - Quantity of each item.
 - Value of each item.
